TABLE OF CONTENTS

- Introduction
- SAP Business One Software Packages
- Contents of the SAP Business One 8.8 Full Product DVD
- Contents of the SAP Business One 8.8 Upgrade Package
- System Requirements
- Release Updates
- Last Minute Changes
- Functionality Updates
- Additional Information
- Support and Feedback

INTRODUCTION

This ReadMe file contains last-minute information not documented elsewhere. We recommend that you take a minute to read the information in this document before you begin installing this version of SAP Business One. We also recommend reading the Easy Start Guide and the database-dependent Administrator's Guide, located on the application DVD, before installing the application.

Note:

The Demo databases are not for productive use. New customers should use new companies.

SAP Business One Software Packages

Product Version

- SAP Business One 8.8 – Full product DVD
- Database – One of the following databases may also be included, according to the configuration of SAP Business One purchased: Microsoft SQL Server 2005, Microsoft SQL Server 2008.
